

ES/ESM End Suction Centrifugal Pump

Product Overview

ES/ESM end-suction centrifugal pump is used to transport clean water and media with physical and chemical properties similar to water. Non-flammable and explosive, low viscosity, no solid particles or fibers: this series of products have good cold and hot general performance, and are widely used in heating systems, cooling water circulation, water treatment systems and other fields.

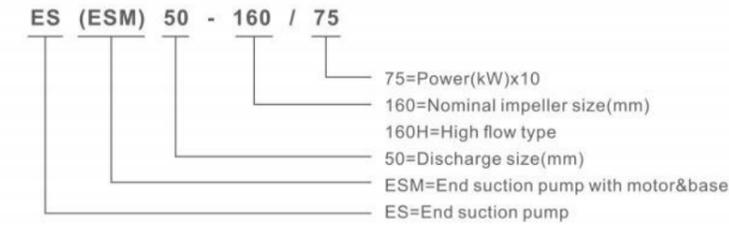

Application

- Heating system
- Air-conditioning system
- Filtering and conveying
- Pipeline pressurization flushing and cleaning system
- Cooling water circulation
- Boiler feed water treatment system
- Equipment supporting system
- Agricultural irrigation

Operating Condition

Transport medium: clear water and medium with physical and chemical properties similar to water, low viscosity, No solid particles or fibers.
 Diameter of pump: 50-300mm at the suction port and 32-250mm at the discharge port.
 Rotational speed: 1450/2900(50Hz) 1750/3500(60Hz)
 Flow range: 2~140 m³/h
 Head range: 1~140m
 Medium PH: 6.5~8.5 as standard and 4~10 as optional.
 Working pressure: 1.0 MPa is standard, and 1.6 MPa is optional.

Model Definition

Features

Widely applicable

The high-efficiency standard motor adopts standardized design and is widely applicable.

Hot and cold universal

Long suspension design, excellent heat dissipation effect of pump body, capable of transporting media from -40°C to +120°C.

Convenient maintenance

Rear pull structure, can be repaired without disassembling the pipeline.

Special design of bearing chamber

Suitable for high head applications, the special design of the bearing chamber ensures the strength of the shaft and stronger product stability.

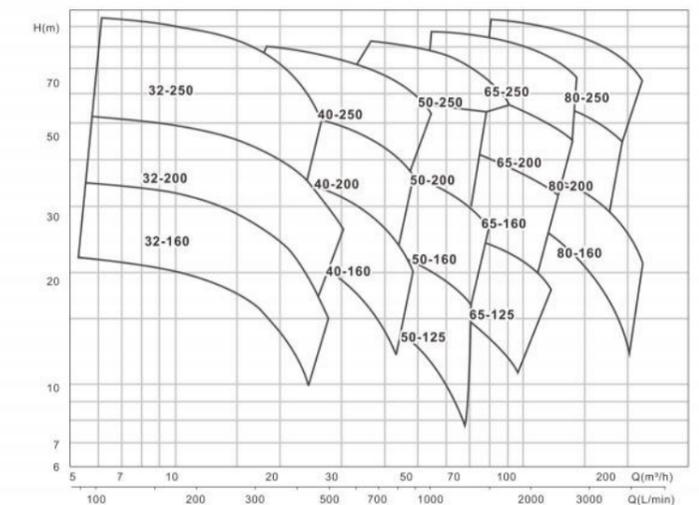

Personalized customization

Provide customized services for cast iron/SS304 impellers, packing seals/mechanical seals according to different usage needs.

Technical Sheet

Model	Detail
Delivery	0-1000 GPM
Head	0-164 m
Discharge	32-150 mm
Speed	2900 rpm
Tmax	120 °C
Power	1.5-315kW
Voltage	220/380/400/440 V
Frequency	50 Hz
Pump case	Cast iron
Impeller	Cast iron/SS304
Shaft	45# steel/SS304
Seal	SiC&Carbon
Bearing	Ball bearing
